PRESENTS

A Digital Imaging Seminar

VATECH Pax-Uni3D Series

HANDS-ON WORKSHOP INVITATION

• Sydney • Brisbane • Melbourne

A Digital Imaging Seminar

Overview of seminar

Dr Jason Pang an experienced user of digital imaging technology, will cover the topic of how to employ digital imaging technology for diagnostic and patient education purposes. This seminar is designed to cover all aspects of reading X-Ray images, from Intraoral through to CBVT.

The Speakers (in order of presentation)

Jason Pang

Dr. Jason Pang has a general dental practice in Neutral Bay. He completed his Bachelor of Science degree (Biomedical Science with the University Medal) with Honours (doing cardiac research) at the University of Technology, Sydney before completing his Bachelor of Dental Surgery degree (BDS) at The University of Sydney. Jason is a member of Australian Dental Association (ADA), Australian Association of Laser Dentistry (AALD), Australian Society of Implant Dentistry (ASID). He has a keen interest in minimal intervention dentistry and placing dental implants. He runs a dental radiology service next to his practice rooms providing dental imaging to local dentists, GPs and specialists. He is also Director of Mindflux which provides virtual reality and stereoscopic imaging solutions for commercial, corporate and educational use.

He enjoys using the latest technology such as dental lasers, digital and cone-beam imaging and cancer/lesion detection systems to provide the highest level of patient care. He enjoys tennis, basketball and spending time with his wife and two young boys.

James Tran

James manages the Gunz Dental digital imaging and technology products portfolio.
